

2013 CFSP Winterkill Report

The following is a summary of the current production acres for each Foundation seed variety covered under the Canadian Forage Seed Project as of spring of 2013. Any acres that suffered winterkill over the 2012/13 winter season have been removed from these totals.

Please note that several of the varieties now have new Managing Companies.

| Foundation Variety | Production Acres | Additional Seed Acres Planted in 2013 | Additional Details |
|---------------------------|-------------------------|--|--|
| Algonquin Alfalfa | 30 | 45 | 2013 field looks good |
